The Fayetteville Express says that it is rumored that the colored people of that town are about to get up a protracted meeting. My goodness! What do you call protracted? We are extremely glad that our people and public generally have extended such liberal patronage to Elkton springs this season. We are not surprised at the prosperity and success of Cedar Bluff (Ky.) Female College. Its liberal system of advertising, coupled with its judicious management, would make any school a success. For the next three months the readers of the CITIZEN will become familiar with the advantages, terms, teachers and location of the school, through the conspicuous advertisement which will adorn our columns during that time.

100 pounds Landreth's fresh Turnip Seed at Sumpter & Stanley's CORNER DRUG STORE. July 19-22.

All is vanity and vexation of spirit. Before the carrier got round with the CITIZEN last Thursday morning a team of horses ran away across the square. We had been waiting all week, hoping and praying for somebody to break his leg or neck, some house to burn, a storm or some other calamity, and just as we gave it up and printed what little we had collected, this beautiful and delightful runaway occurred. We are sorry to say that no one was hurt and no damage was done.

Our new prints are selling very fast New York Store.

There are too many bosses for that work on the West Side. Each man in town wants the houses built to suit him, and the proprietors persist in putting it up to suit themselves. There will be a fuss over the matter yet. We will be satisfied with one change in the plan. We insist that the upper corner of the east level be inclined to an obtuse right angle so that the columns may rest on the cobbles and the pilasters inserted in the base phinal may reach the summit of the cellar floor, and chink up the holes with sand.

It is with pleasant feelings I am enabled to inform all the people of Giles and adjoining counties that I am now connected with the new and popular Dry Goods Store of W. T. McCall, North East Corner of the Public Square, Pulaski, Tenn., where I will be happy to meet all my old friends and the trading community generally, feeling confident I can please them in price and quality of goods. Pledging myself to merit no effort to secure their permanent trade and patronage, and their interests, I am, very truly,

JOHN SHAPARD.

The Lynchburg Sentinel reports 52 wheat crops in its latest issue from various portions of Moore county, aggregating 1567 acres which yielded 14,048 bushels of wheat. It says by this report it is enabled to form a fair estimate of the general average per acre, as the crops reported were scattered pretty generally over the county. It will be seen that the average is not quite 9 bushels per acre. The Sentinel thinks it would have been fully 25 per cent. greater but for the rust. We would be glad to make a similar report for Giles, if the farmers or owners of threshers would enable us to do so.

Ladies' Misses' and Children's New Ties at the New York Store.

Rev. W. T. Andrews, father of our handsome type Mr. Jas. D. Andrews, came up to visit his many friends and relatives in this county last week and filled Mr. Dinwiddie's pulpit on Sunday, preaching one of the most practical, useful and sensible sermons we have heard in a long time upon the subject of prayer. He advanced ideas we never thought of before. A very large audience heard him, and the universal opinion was that it was an extraordinary sermon. He will return to his home in Alabama to-day.

Mr. H. C. Kimbrough was seized in town by a company of gentlemen and carried into a barber shop and had his hair trimmed and his face shaved and his boots blacked by a barber for the first time in his life. He is 42 years old. He also sat quietly at home all time and never knew the luxury of having his head ransquadded by a barber and never enjoyed the exquisite delight of the barber's itch before, but now that he has tasted the sweets, his friends will have to watch him to keep him from spending all his time and money for shaving, blacking brushes and oysters.

## PASTURAGE.

500 ACRES EXCELLENT PASTURE. Apply to JOHN PHILLIPS. July 19-22.

Miss Carrie Walker of Columbia, Tenn., one of the most gifted of our Southern women, a young lady who has gained considerable eminence at home as a reader and eloquent speaker, will read to-night at Antoinette Hall. She is spoken of in the very highest terms by the press and people as an eminently accomplished and worthy, and we hope to see our citizens give her a good audience.

We are always ready to jump at a Yankee exhibition of any kind. Here is a Southern woman who is trying to make a living and to educate herself in her chosen profession, and shall we not accord her our support and encouragement? She is stopping at Rev. A. G. Dinwiddie's.

For only \$2.25 we will send the "Citizen" and a beautiful Chromo (no choice of four as described elsewhere) to any part of the United States, post paid.

Persons in the county have no postage to pay and need send only TWO DOLLARS.

Messrs. Mark Clark and William Buford were washed away in Sink Creek while returning from Elkton last Friday. There had been a terrible rain, and while they were standing in the creek the torrent rushed down from the hills and carried their buggy away. They jumped out and cut the horse loose, and it got safely to shore, but the buggy has not been heard of yet. Mr. Buford was washed down the creek and caught in a thorn tree, which he held on to, though his hands were badly lacerated, until the creek ran down. They offer \$10 for the buggy. When they drove into the creek it was barely up to the hub, and before they could get out the deluge from the hills came down carrying everything before it.

Bargains at the New York Store.

There are more bare-footed negroes to be seen this year than before. Their clothes are terribly patched and they look hungry. Heaven knows what is to become of them, if they don't substitute for their dawning sloth and filthy idleness habits of thrift and activity. They are in their glory when they are at a festival, or an auction, or at meeting, or gadding about at night, and they exhibit wonderful strength of body and pertinacity of purpose in eating and drinking all they can lay their hands on and sitting up all night at a festival and sleeping in the sun next day, when they should be at work. They are learning nothing except how to get along with as little work as possible. This is all especially true of the negro in shiffling filth and are not taught the least habit of industry.

Bishop McTeir, Dr. Young and perhaps Dr. Kelly will arrive in Pulaski on the noon train to-morrow (Friday) to confer with the citizens with reference to the establishment of a permanent high school preparatory to the Vanderbilt.

A proposition has been made to them on the part of our citizens to make the Vanderbilt a present of the Giles College property for that purpose. The trustees who own the property agree to sell it for that purpose at a nominal price, and we believe the citizens will be liberal in contributing their means for the accomplishment of so important an enterprise. This would not only give to our male school the high grade we so much need, but the permanency and stability of the Vanderbilt itself. Every citizen rich and poor, whether he has children to educate or not, is interested in this matter, and if the Vanderbilt committee accede to our proposition, every man must do his part liberally.
